## SOFTWARE DEVELOPER

I'm a Junior Web Developer originally from Ethiopia, now in the Netherlands for six years. Despite life's challenges, I've always aced my studies, ranking at the top in every class. Raised with limited access to school and tech, I turned that into fuel for my passion to learn. I've a good understanding of PHP, MVC Framework, JavaScript, SQL, HTML, Twig, CSS, Scrum, Unit Testing and tools like Tailwind and Bootstrap. I'm eager to contribute my skills and learn from experienced mentors in a dynamic internship.
